

The Client Waiver

Waiver / Agreement

Welcome to Sacarrha Salon. Our objective is to help you achieve a beautiful tan and your health and safety is our main concern.

HVLP UV Free Spray-on Tanning

- *Your spray on tan color will not provide you with protection from tanning beds or the sun. A broad-spectrum sunscreen is recommended for protection against overexposure to UVA/UVB rays.*
 - The tanning solution contains color that may transfer to clothing, furniture or car seats. The tanning solution is water-based so washing will always remove the color, with the exception of silk fabrics. We suggest bringing a towel to cover your car seat and tanning in an old bathing suit or undergarment if you choose to wear one. **Sacarrha Salon** is not responsible for potential stains to clothing or upholstery.
 - If you have sensitive skin or allergies to sunless tanning products containing DHA, or if you are unsure whether you may be allergic to DHA, we suggest consulting your physician prior to tanning. Allergic reactions such as minor skin rash are extremely rare and can usually be alleviated by a simple shower. If you have never used a sunless tanning product, we suggest a patch test 24 hours before the full body application.
 - During the tanning process your tanning professional may have to touch your body to properly position you for application and to remove excess product. You will be advised of any contact before it occurs.
 - It is important to follow written and verbal instructions provided by your tanning technician. *Failure to do so may adversely affect your tanning results.*
 - Duration of your tan is based on many factors such as skin condition, exfoliation rate, lifestyle, etc **Sacarrha Salon** has no control over these factors and makes no claims with regard to duration. Maintaining your sunless tan requires regular proper care. Consult your tanning professional for tips, aftercare instructions and products to maximize your sunless tanning results.
1. **Sacarrha Salon** is not responsible for lost, stolen, or damaged personal effects.
 2. Pregnant women should consult a physician prior to using sunless products.
 - Please check one: I am not pregnant_____
 - I am pregnant, and have discussed sunless airbrush tanning with my physician_____.

I have read and understand the above statements and hold Sacarrha Salon harmless with regard to any and all claims.

BEFORE YOUR SUNLESS TAN:

1. In the shower, shave legs, underarms, etc. and exfoliate the skin *afterwards* with a pH-balanced, pre-tan scrub, such as our Aviva Labs Exfoliant. Avoid bar soaps and moisturizing spa-type scrubs as some may leave residue which interferes with the development of tanning solutions. It is important that you use an exfoliant intended for use before application of a DHA product. **Sacarrha Salon** carries preparation and tan maintenance products for your convenience.
2. If you condition your hair, do so *before* you scrub. Do not apply deodorant, lotions, or perfumed products after your shower.
3. Clients should wear an old, dark swimsuit, or undergarments, during their session. Some clients purchase an inexpensive swimsuit dedicated to their tanning sessions.
1. Wear dark, loose clothing, and sandals to your session. Tight or restrictive clothing will damage your developing tan. A jogging suit or long cotton sundress, and flip-flops are ideal.
4. Wear lip balm or lipstick to your appointment.
5. NOTE: Female clients over the age of 18 **Sacarrha Salon** Be assured that we are professionals and will make every effort to accommodate your needs and make you as comfortable as possible whatever you choose to wear.
6. While we have pre-tan products for use immediately before your session that can help the tanning solution adhere and develop properly, there is no substitute for your personal preparation. The DHA solution will continue to develop over the next 24 hours and usually lasts up to 7-10 days depending on hydration and exfoliation, and individual body chemistry.
